Education

2021- running
Bachelor in Computer Science and Engineering
North South University

2020
Higher Secondary Certificate (HSC)
Government Science College
GPA - 5.00

2018
Secondary School Certificate (SSC)
Motijheel Model School and College
GPA - 5.00

Competence

- Website Fundamentals
- Documentation(MS Word, Excel, PPT)
- Public speaking

Extracurricular Activities

- **Sports**
- **Coding**
- **Chess**

About me

I'm a passionate computer science and tech enthusiast with a constant thirst for new knowledge and a drive to push the boundaries of what's possible with technology. I am convinced that continuously acquiring new skills is essential for thriving, and I am always eager to embrace and adapt to the ever-changing digital world.

Experience

Dynamic website for course CSE 311(Database Systems)

Viper Travels

In our university course, my group and I collaborated on a project to develop a website called ViperTravels, a comprehensive travel management system leveraging an SQL database. Our primary objective was to create a dynamic website that would seamlessly update data based on user interactions. To achieve this, we utilized a robust stack, including HTML, CSS, JavaScript, PHP and MySQL for database management. Additionally, we incorporated basic UI design principles to enhance the overall user experience.

Our efforts resulted in a well-received project, earning us commendation and appreciation from our instructor. This experience marked my first foray into working on a semi-large scale project, providing invaluable hands-on experience. Since the completion of the ViperTravels project, I have actively continued to refine my skills by working on various projects, constantly learning and exploring new developments in the web development field.

Documeantation and Presentational Skill

I have extensively utilized MS Word, Excel, and PowerPoint, as well as Canva, to craft comprehensive documentation for various university projects. In particular, I employed Excel for meticulous data tracking and PowerPoint for creating visually engaging presentation slides that effectively communicated course content. The quality of my presentations was well-received, earning praise from both faculty members and peers.

Throughout my GED courses in university, I consistently achieved high grades, attributed to my proficiency in crafting compelling slides and my adeptness as a public speaker. These experiences have not only solidified my technical skills but also honed my ability to effectively convey information, contributing to my overall success in academic endeavors.
